

YOUR RIGHT TO RETURN HOME

Portland Community Reinvestment Initiatives (PCRI) is leading the Pathway 1000 Initiative, a large scale housing justice campaign designed to address involuntary displacement of N/NE Portland residents.

Through the Pathway 1000 initiative, PCRI plans to create 1,000 new affordable homes, many of which will be available to purchase. The homes will be located throughout the city of Portland, with the primary focus on the N/NE Portland neighborhoods.

If you need housing, then we need to understand what is important to you. Your participation will help

determine what type of housing and neighborhood features are needed in N/NE Portland. *Join us for a community conversation about your right to return home.*
